InTime was built for the police, by the police, so you can rest assured that we understand your advanced employee scheduling and workforce requirements.

We have your complex rotation patterns, departmental rules and coverage levels covered, you only have to manage exceptions and approvals. Scheduling really doesn't have to be a full-time job!

---

## FOR POLICE

InTime's scheduling solution is not only the most effective and easy to use system for private security staffing, but it's the only system that actually enables you to provide a better customer service.

You can view your schedule in terms of your contracts and locations using tools that will help keep your costs low and boost your bottom line.

---

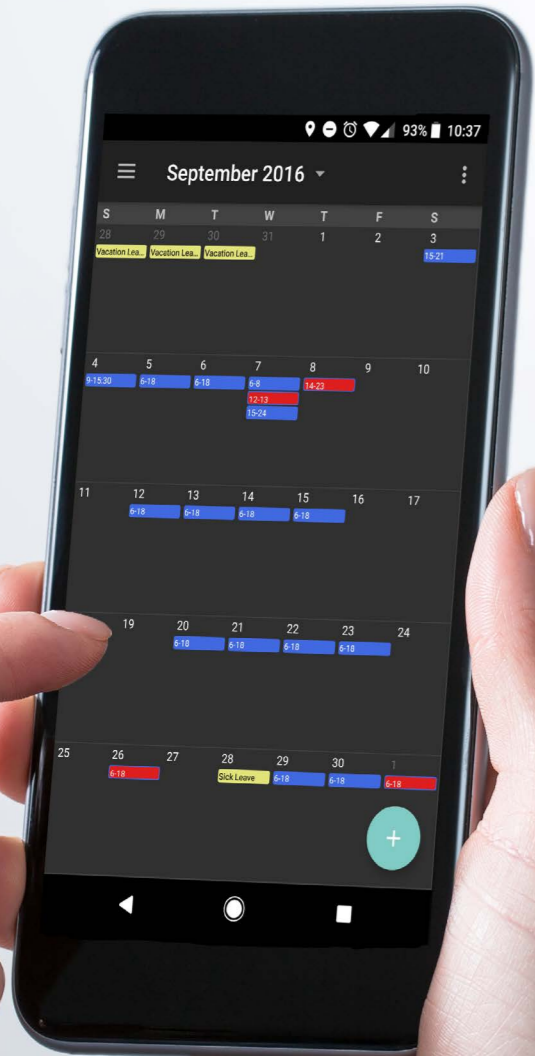

## FOR SECURITY

We understand how critical it is that your shifts are staffed with adequately experienced employees.

Specifically designed for prisons, InTime's modular based systems allow you to view your schedule based on all your departments and locations, identify staffing and experience gaps and post openings to employees in a few clicks.
